Interdisciplinary Centre for Aristotle Studies, A.U.Th.:	
Establishment - Purpose & Object	56

Dear Colleagues,

The World Congress that celebrates the 2400 years from the birth of the great philosopher Aristotle is an extremely significant event for our University, which bears Aristotle's name, and has the privilege to be located near ancient Stageira, the birthplace of Aristotle, and ancient Mieza, the place where the Macedonian philosopher taught Alexander the Great. It is also a happy coincidence that this year Aristotle University of Thessaloniki celebrates its 90 years since its founding.

The universality and the interdisciplinarity that characterize Aristotle's work, in correlation with the long and important tradition of Aristotle University of Thessaloniki in the field of Humanities in general, and in Philosophy in particular, were the reasons that led to the decision of our University, the largest multi-thematic University of Southeastern Europe, to establish -five years ago- the "Interdisciplinary Centre for Aristotle Studies" (DIKAM), which includes in its Board both philosophers and scientists of several scientific fields.

The "Interdisciplinary Centre for Aristotle Studies" (DIKAM) has already developed an intense activity for the study and the promotion of Aristotle's work on an international scale, undertaking at the same time the initiative to prepare the proposal for the proclamation of 2016 as the "Aristotle Anniversary Year" in collaboration with the Hellenic National Commission for UNESCO. The culmination of the significant work accomplished by the "Interdisciplinary Centre for Aristotle Studies" is the organization of the World Congress "Aristotle 2400 Years". It is also worth mentioning the initiatives of the "Interdisciplinary Centre for Aristotle Studies" for the issuing of a Commemorative Set of Stamps by the Hellenic Post, as well as the initiative of the Aristotle University of Thessaloniki to create a calendar for all the events planned for the "Aristotle Anniversary Year" in Greece and worldwide.

Dear Colleagues, Aristotle University of Thessaloniki pays tribute to Aristotle, one of the greatest thinkers, whose work exercised a continuous influence on the intellectual history of humanity for twenty four centuries.

As the Rector of Aristotle University of Thessaloniki, I am proud and delighted for the realization of this World Congress at our Institution.

I would like to thank the "Interdisciplinary Centre for Aristotle Studies," of AUTh, the Organizing Committee of the World Congress and all the younger scientific collaborators and volunteers for their tireless efforts for the organization of the Congress. I also wish to thank the great number of distinguished Aristotle scholars, who shed led, with their work, on the different aspects of the multifarious Aristotelian work, as well as each and every one of the acknowledged participants from all over the world that honor us with their presence here.

The Rector of Aristotle University of Thessaloniki

Professor Pericles A. Mitkas

Honorary President of the World Congress "Aristotle 2400 Years"

Dear Participants, colleagues and friends,

It is with great pleasure that I welcome you to the homeland of Aristotle. The impressive number of Aristotle scholars, from forty countries all over the world and, at the same time, of so many diverse traditions and cultural environments, stands as an excellent example of the way Aristotle can be an intellectual force uniting people. What we all have in common is our desire to pay tribute to Aristotle and to study in depth, analyze, understand and share his ideas. Indeed, the unique impact of his work in the history of the human thought continues to exercise an influence on our intellectual life on a global scale. His ideas of democracy, justice, law, city-state, are only some of the debts of the Western world to Aristotle; his work spreads over the broadest range of topics, covering all major branches of Philosophy and extending in an impressive way into areas related to all fundamental fields of science.

The proclamation by UNESCO of the year 2016 as the “Aristotle Anniversary Year” –an initiative which was launched by the Interdisciplinary Centre for Aristotle Studies”, AUTH, in 2013 and was successfully realized with the collaboration of the Hellenic National Commission for UNESCO– provides the ground for highlighting the fact that Aristotle belongs to the entire world; that his work is an essential part of the World Cultural Heritage. Among all the events to be organized in the year 2016, the World Congress “Aristotle 2400 Years” is the most important and prestigious celebration attended by internationally renowned Aristotle scholars all over the world.

It is certainly true that Greece has been experiencing difficult times during the last six years. However, this has not made us, even for a moment, stop working for the successful organization of this Congress. The fact that the Congress will take place at the Aristotle University, but also in ancient Stageira, Aristotle’s birthplace, and in ancient Mieza, where Aristotle taught Alexander the Great, will offer a thrilling, once in a life time experience for those who admire the Stageirite philosopher and have a high esteem for his legacy.

I wish to thank wholeheartedly all of you, who have decided to be part of this great event. I would also like to thank the Rector of the Aristotle University of Thessaloniki, our distinguished Invited Speakers, the Members of the Scientific and Organizing Committee, and all those involved in the preparation and organization of the World Congress “Aristotle 2400 Years”.

We welcome you to the homeland of Aristotle and we promise you a memorable and intellectually exciting week. We hope that this worldwide recognition of the philosopher, who has offered more than any other in the history of human intellect, will become a point of reference worldwide and will prove that his teaching have much of value to offer us today, as they can lead us to a deeper understanding of concepts, ideas and problems of our own era.

Professor Demetra Sfendoni-Mentzou

President

World Congress “Aristotle 2400 Years”

Interdisciplinary Centre for Aristotle Studies, AUTH

COMMITTEES

ORGANIZING COMMITTEE

- Chair:** Pericles A. MITKAS, Rector AUTH

GRANTS AWARDED

As one of the aims of the World Congress “Aristotle 2400 Years” has been to encourage young researchers and PhD students, whose work is pertinent to Aristotle Studies, the Congress Committee have invited PhD students (participants with contribution) to apply for a limited grant (concerning participation expenses) depending upon availability of funds.

After assessing the papers of all 34 applicants, the Congress Committee was managed to support the following young researchers in presenting their work at the World Congress “Aristotle 2400 Years”

Below are the names of applicants whose research work has attained a high level of excellence.

Acosta Lopez de Mesa Juliana (USA)

Bonasio Giulia (USA)

Buttaci Jonathan (USA)

LaBarge Maria (USA)

Lammer Andreas (Germany)

Oki Takashi (UK / Japan)

Phillips-Garrett Carissa (USA)

Puddu Elisabetta (Italy)

Sandstad Petter (Germany)

CONGRESS CULTURAL EVENTS

Monday May 23, 2016

- 10:30 -12:30 **City Walking Tour:** The Kaleidoscope Walk - Exploring the many colors and images, the many stories of Thessaloniki
[meeting point: Congress Secretariat]
- 18:00 -20:30 **Opening Ceremony**
Music Event by the The Choir of the Greek Society for Music Education (G.S.M.E. Choir)
[Main Ceremony Hall, Administration Building of AUTh]
- 20:30 **Welcome Reception**
[Foyer of Administration Building of AUTh]

Tuesday May 24, 2016

Ancient Mieza

[Gardens of Administration Building of AUTH]

During the Congress (Foyer of Administration Building of AUTH)

**AIKATERINI LASKARIDIS FOUNDATION
/ THE HISTORICAL LIBRARY**

Exhibition of books and archives related to Aristotle

The Historical Library of the Aikaterini Laskaridis Foundation comprises several individual collections of books and archives that belonged to important scholars. Prominent among them are the Bibliotheca Graeca, a collection of all Ancient Greek and Byzantine texts, the travelers’ collection of Panos Laskaridis, the collections of

C. Th. Dimaras, I. N. Theodorakopoulos, G. Dolianitis et al. This wealth of material is addressed primarily to researchers, but also to everyone who wishes to experience the richness of ancient and modern Greek literature.

In the occasion of the World Congress ‘Aristotle 2400 Years’, the Historical Library of the Aikaterini Laskaridis Foundation presents a numbers of unique and valuable publications related to Aristotelis and his work, dating back to the 15th century.

[Outside the Main Ceremony Hall, Administration Building of AUTh]

CONGRESS SPEAKERS’ PUBLICATIONS EXHIBITION

Due to the participation of many distinct Aristotle scholars as speakers in the programme of the World Congress “Aristotle 2400 Years” a special exhibition with the participants’ publications is being organised.

[Exhibition/Secretariat Area, Administration Building of AUTh]

COMMEMORATIVE SET OF STAMPS

To mark the 2400th anniversary of the birth of Aristotle, and in the occasion of the World Congress ‘Aristotle 2400 Years’, Hellenic Post is issuing a commemorative set of stamps to honour his invaluable contribution to humanity. The works of the great Macedonian philosopher of antiquity, the student of Plato and the tutor of Alexander the Great, unique in range and influence in the history of human thought, are an integral essential part of world cultural heritage.

The commemorative set of stamps will be particularly presented and displayed along with other philately and postage items, all throughout the duration of the Congress.

INTERDISCIPLINARY CENTRE FOR ARISTOTLE STUDIES, A.U.TH. ESTABLISHMENT - PURPOSE & OBJECT

The Interdisciplinary Centre for Aristotle Studies (DI.K.A.M.) was established by an unanimous decision of the Senate of Aristotle University of Thessaloniki (A.U.TH.) on July 6, 2011, as an act of acknowledgement of the close bond that connects it with Aristotle, as well as an act of acknowledgement of the enormous significance of the Stageirite's work, with regard both to its continued influence on human thought for a period of 2,400 years, as well as to the amazing range of topics dealt with by Aristotle; topics covering all major branches of philosophy, extending though, in an impressive way, into the basic areas of the sciences, as well.

The goal of DI.K.A.M. is to study Aristotle's work from an interdisciplinary perspective and promote it, on an international scale, in areas covering traditional branches of Philosophy, as well as areas related to a big number of scientific disciplines, such as Humanities, Biology, Physics, Mathematics Law/Political Sciences, Health Sciences and Technological Sciences. This, moreover, is what comprises the innovative character of the Centre, making it unique on an international scale.

It is our ambition that the "Interdisciplinary Centre for Aristotle Studies" becomes a pole of attraction and a point of reference, both for Aristotle scholars and students worldwide, as well as for those who are interested in getting acquainted with the work of the Stageirite philosopher. Furthermore, it has the unique privilege not only of operating in the country where Aristotle was born, but more specifically at Aristotle University that bears his name and is located a breath's distance from Stageira, the birthplace of the Macedonian philosopher and from Mieza, the place where he taught Alexander.

More importantly, though, because Aristotle is the universal philosopher, whose work has left indelible marks on the Hellenistic world, on Byzantine scholarly tradition, on the Arab world and on the Medieval thought of Europe, and continues to have an influence on the intellectual life of contemporary Western civilization. We thus believe that the study of Aristotle's work, apart from showing its universal and timeless character, can also lead us to a deepening and understanding of concepts, ideas and problems of today on global scale.

BOARD

Demetra Sfendoni-Mentzou, President, *Professor of Philosophy of Science, A.U.TH.*

John Seiradakis, Vice-President, *Professor of Astrophysics, A.U.TH.*

Zacharias Scouras, General Secretary, *Professor of Biology, A.U.TH.*
